

AeroDIODE

AeroDIODE is specialized in optoelectronics solutions for semiconductor devices such as laser diodes, AOMs (Acousto Optic Modulator) or SOA (Semiconductor Optical Amplifier).

AeroDIODE offers, in particular, flexible photonics solutions in the following categories:

- Laser diode driver : low noise laser diode driver, pulsed laser diode drivers
- Fiber coupled laser diode : 915 nm laser diode, 1064 nm laser diode, 1310 nm laser diode, 1550 nm laser diode...
- Fiber intensity modulator : SOA pulsed drivers, fiber coupled AOM,
- Synchronization electronics : pulse delay generator, pulse picker, delay generator
