

SYNTHWAVE *Lasers*

SYNTHWAVE LASERS provides highly flexible lasers with unique specifications. Our novel and flexible laser solutions are engineered to deliver unseen performance ranges and parameters tunability.

Discover our first product ! Neon - The GHz pulse laser synthesizer

Neon delivers optical pulses with a repetition rate up to 18 GHz (continuously tunable if needed !). Pulse emission can be synchronized natively (no locking electronics !). Want GHz bursts ? Neon delivers them too !
