

Attendee's Guide

Update 07/02/2023.

Optomechanics & Nanophonics thematic school of the Société Française d'Optique The Houches Physics School, France, April 17- 28 2023

This guide provides a wealth of useful information for an attendee of the SFO Thematic School. To understand how the School, as a host structure, works, please read the whole document before submitting a request.

PROGRAM

Monday April 17 for an arrival in the afternoon, and lasts till Friday April 28, at noon.

The school classes start on Tuesday April 18th in the morning.

Please consult the latest version of the program on the school website:

<https://www.sfoptique.org/pages/sfo/ecoles-thematiques/2023-optomecanique-nanophonique/>

N.B. the program is available 2 months before the start of the school.

ARRIVAL

Arrival is only possible **from 3:00 pm on Monday**.

Please note: for security and liability reasons, The Houches Physics School cannot open the buildings earlier. Given the location of the school, far above the village of Les Houches, we would ask you to arrive on site **no earlier than 3 pm**, as there are no shops nearby (restaurants and other services are more than 2 km from the site and buses 30 minutes away on foot).

On arrival day, a practical information and documents provided by Organizers and the The Houches Physics School.

The access codes to access to your room will be sent to you by e-mail. These codes are not available on site for obvious security reasons.

Please check that the email used in your SFO Thematic school registration is still valid.

DEPARTURE

Friday, April 28 at noon. Rooms must be vacated at 9 a.m.

FEES INCLUDES

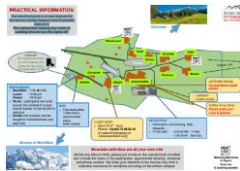

full board, from dinner on the day of arrival to lunch on the day of departure.
You will be housed in single rooms in chalet.
